

Semi-annual Pillar 3 disclosures for the six months ended 30 June 2023

1 Introduction

This document sets out the consolidated Vanquis Banking Group plc (the Company) Pillar 3 disclosures (together with its subsidiaries the Group) at 30 June 2023 in accordance with the requirements of the UK Capital Requirements Regulation (CRR).

1.1 The Group

On 30 June 2023 the Group comprised two principal trading divisions:

- Vanquis Bank, which provides credit cards to the non-standard UK consumer credit market, offers unsecured personal loans and accepts retail deposits; and
- Moneybarn, which provides vehicle finance in the UK.

Vanquis Bank is authorised by the Prudential Regulation Authority (PRA) and regulated by the PRA and the Financial Conduct Authority (FCA). The PRA sets requirements for Vanquis Bank relating to capital and liquidity adequacy and large exposures.

The Group, incorporating Vanquis Bank and Moneybarn, is the subject of consolidated supervision by the PRA by virtue of Vanquis Banking Group plc (formerly Provident Financial plc) being the parent company of Vanquis Bank. The PRA sets requirements for the consolidated Group in respect of capital and liquidity adequacy and large exposures. Moneybarn is regulated by the FCA.

1.2 Disclosure framework

The Group is regulated for prudential capital purposes under the Basel 3 regime, the international regime governing capital maintenance in banks, which is supervised by the Basel Committee on Banking Supervision (BCBS). In the UK this regime is enforced through the PRA Rulebook (the Rulebook), following the implementation of the Financial Services Act 2021 on 1 January 2022. Formerly these rules were applied on a European Union (EU) basis through the fourth Capital Requirements Directive (CRD IV) and the first Capital Requirements Regulation (CRR) (Regulation 575/2013). Certain aspects of this EU legislation remain applicable in the UK.

The framework consists of three 'pillars'. Pillar 3 complements Pillars 1 and 2 and aims to encourage market discipline by developing a set of disclosure requirements which allow market participants to assess key pieces of information on a firm's capital, risk exposures, risk management processes, leverage and remuneration.

1.3 Pillar 3 Disclosure Policy

The Group's approved Pillar 3 Disclosure Policy is as follows:

The Company's Pillar 3 disclosures cover the Group as a whole, comprising the Company and all its subsidiary undertakings. They are therefore prepared on the same basis as the Group's consolidated accounts. References to the Group in this document therefore include the Group's banking subsidiary, Vanquis Bank Limited (the Bank).

Pillar 3 disclosures will be made on an annual basis using the Group's financial year-end date of 31 December. The disclosures will be published in line with the publication of the Group's Annual Report and Financial Statements (the Annual Report). The key metrics are required to be disclosed semi-annually and disclosure will be made on a semi-annual basis using the Group's interim report date of 30 June.

These Pillar 3 disclosures will be published on the Group's corporate website, www.vanquisbankinggroup.com, alongside other disclosures made in the Annual and Interim Reports, which are published in the same location. Both documents are published on the website at approximately the same time, in accordance with the requirement in Article 433 of the Rulebook.

The Company's Disclosure Policy for Pillar 3 is based on the interpretation of the requirements of the Disclosure (CRR) Part of the Rulebook. The Group is defined as a 'Small and Non-Complex Institution' under these rules (i.e., neither Large nor Other), as it meets the criteria for such classification in Article 4(145) of the CRR. Its disclosure requirements are therefore set out in Article 433b of the Rulebook. This requires that the Group produces an annual Pillar 3 Report and discloses key metrics on a half yearly basis.

There are certain disclosures that are only required by the Rulebook where an institution is large or an LREQ firm, as defined by the PRA Rulebook. The Group's balance sheet size is too small to be classified as large or to fall within the LREQ rules on leverage. Therefore, these have not been presented for the Group.

1.4 Basis and scope of disclosures

The results of Vanquis Banking Group plc and all subsidiary undertakings have been included in the Pillar 3 disclosures and there are no differences between the basis of consolidation for accounting and prudential purposes. These disclosures have been subject to internal verification. These disclosures have not been externally audited and do not constitute any part of the Group's financial statements; however, some of the information within the disclosures also appears in the Annual and/or Interim Report.

Article 432 of the CRR states that institutions may omit one or more of the Pillar 3 disclosures if the information is not regarded as material. Information in disclosures shall be regarded as not material if the Group does not expect that its omission or misstatement would change or influence the assessment or decision of a user relying on that information for the purpose of making economic decisions. No disclosures required by Article 433b have been omitted on the grounds of materiality from this document.

These disclosures have been compiled on the most appropriate basis for this purpose and following the instructions on calculation and classification given in the Rulebook and therefore may not agree directly with disclosures addressing similar matters presented in the Annual Report.

2 Key Metrics

This section sets out the Group's its key capital and liquidity metrics.

In line with the UK KMI template instructions the disclosure of data for previous periods is not required when data is disclosed for the first time. This is a PRA fixed format template; therefore, cells not required have been left blank or indicated as not applicable.

- 1 In line with the UK KM1 template instructions only LREQ firms shall disclose values in rows 14a to 14e.
- 2 These measures are based on a 12-month rolling average of month-end positions; therefore, it cannot be directly calculated from the values given above.
- 3 These measures are based on a four-quarter rolling average of quarter-end positions. PSI7/21 'Implementation of Basel standards' states the first disclosures of the net stable funding ratio (NSFR) will not in practice be possible on this basis until after 1 January 2023 (para 13.103), when at least four quarters of reporting NSFR have been completed under CRR2 rules. The Group has interpreted this to mean the disclosure of 31 December 2022 average NSFR should be made (and periods thereafter). No disclosure of 30 June 2022 has been made.

The Group has no Additional Tier 1 capital and as such there is no difference between the CET1 capital ratio and the Tier 1 capital ratio. A reconciliation between regulatory own funds to the balance sheet in the audited financial statements is not required by Article 433b.

Under Annex II to the Disclosure (CRR) Part of the Rulebook, information on the result of the Group's internal capital adequacy assessment process (Article 438(a) CRR) shall only be disclosed by institutions when required by the relevant competent authority. This has not been demanded from the Group.
